

Practice C

For use with pages 10–16

Decide whether the statement is *true* or *false*.

- | | |
|---|--|
| 1. Point Y lies on line m . | 2. $X, Y,$ and Z are collinear. |
| 3. Point W lies on line m . | 4. $X, Y,$ and Z are coplanar. |
| 5. \overrightarrow{YW} and \overrightarrow{YD} are collinear. | 6. \overrightarrow{YW} and \overrightarrow{YD} are coplanar. |
| 7. \overrightarrow{YX} and \overrightarrow{YZ} are collinear. | 8. \overrightarrow{YX} and \overrightarrow{YZ} are coplanar. |

Name a point that is collinear with the given points.

- | | |
|-----------------|-----------------|
| 9. B and E | 10. F and E |
| 11. D and G | 12. A and C |
| 13. G and E | 14. F and C |
| 15. A and D | 16. B and C |

Name a point that is coplanar with the given points.

- | | |
|---------------------|---------------------|
| 17. $J, A,$ and E | 18. $B, C,$ and J |
| 19. $D, E,$ and A | 20. $H, E,$ and A |
| 21. $A, B,$ and H | 22. $A, B,$ and C |
| 23. $F, H,$ and B | 24. $D, E,$ and H |

Sketch the lines, segments, and rays. Label your sketch.

- Draw four noncollinear points $A, B, C,$ and D . Then sketch $\overleftrightarrow{AB}, \overrightarrow{BC}, \overrightarrow{CD},$ and \overline{DA} .
- Draw five noncollinear points $M, N, O, P,$ and Q . Then sketch $\overline{MN}, \overrightarrow{OP}, \overrightarrow{PQ}, \overleftrightarrow{MP},$ and \overline{NO} .
- Draw three collinear points $H, I,$ and J with I between H and J . Add a point K between I and J .
- Draw two points S and T . Then sketch \overrightarrow{ST} . Add a point U on the ray so that T is between S and U .

Sketch the figure described, if possible.

- Three points that are collinear but not coplanar.
- Three lines that intersect at a single point.
- Three lines that intersect at two points.
- Three lines that do not intersect.
- Two planes that intersect.
- Two planes that do not intersect.
- Two rays that intersect at their initial points.
- Two collinear rays that do not intersect.
